John – I hate to be such a “dufus” on this stuff but I thought you had included the names/locations of the mines, smelters as well as the stream sampling locations??? The streets in town and Hwy 2 and 110 and Cement Creek and Animas River labels show but nothing else. I have most of the layers checked and I’m using the “Bing Imagery w/Labels” base map so what am I doing wrong?

All,

You have been provided access to the Upper Animas Site Viewer. Your username and password are your first initial last name in all lower case. For example, Joe Smith would have a username of jsmith and a password of jsmith.
